To Whom it May Concern

We have installed Forsythe's Power-Flo in our Shred-Tech ST-500 shredder unit. The conversion from mineral oil was quick and easy.

We became interested in the special properties of the fluid, especially environmental and fire-resistance.

Forsythe were more than helpful in assessing our needs and have gone above and beyond my expectations in providing me with exactly what I need. It is time for the world to look at "green" options and "Power-Flo" is a cut above the competition.

I cannot believe that, in this day and age, people continue to use fluids that can harm the environment when excellent alternatives such as "Power-Flo" are available.
